org.calendar_rules

Source: hobasa-agentic-sdlc/org/org.calendar_rules.md (input at commit 9690c9b). Iteration: ITER-2026-10 (trigger date 2026-10-25).

System demo

- Held 24 October 2026 at 15:00.

PROD window

- 11:00-12:00 on the day after the system demo, which is 25 October 2026.
- The window date equals the trigger date of this step (2026-10-25).

Timezone

- Asia/Kolkata.

Holidays

- None in the window.

Iteration dates

- Not recorded: iteration start and end dates for ITER-2026-10 are not in the source. Left blank, not guessed.

Release train dates

- Not recorded: release train dates are not in the source. Left blank, not guessed.

Open items for the approver

- Provide the ITER-2026-10 iteration start and end dates and the release train dates.
- Confirm the holiday list (source says none in the window) and that the PROD window falls on a working day.
